Top Skills

Natural Language Processing (NLP)
Large Language Models (LLM)
Computer Hardware Troubleshooting

Certifications

Python Developer
Introduction to SQL
Data Science
HTML5
The Data Science Course: Complete
Data science Bootcamp 2024

Shakiru Sikiru

Machine Learning Engineer || AI Engineer
Lagos State, Nigeria

Summary

Highly skilled Data Scientist with robust expertise in data analysis, machine learning, and deep learning. Proven experience in leveraging advanced statistical models and machine learning algorithms to solve complex business problems and deliver actionable insights. Proficient in Python, TensorFlow, and Keras, with hands-on experience in predictive modeling, classification, and clustering. Developed various data-driven projects, including customer retention analysis, image classification using CNNs, market segmentation, and predictive analytics. Adept at managing datasets with numerous predictors, optimizing model performance, and presenting results to stakeholders. Passionate about leveraging AI and data science to create scalable, impactful solutions for businesses.

Key skills include:

- Machine Learning (Linear Regression, Logistic Regression, Support vector Machine, Decision Trees, Random Forests, K-Means, KNN, Time series analysis)
- Deep Learning (Convolutional Neural Networks, Artificial Neural Networks, Recurrent Neural Networks)
- Data Analysis and Visualization (Matplotlib, Pandas, Seaborn, Tableau)
- Web Development (HTML, CSS, Streamlit)
- Statistics & Mathematics (Descriptive statistics, Inferential statistics, Probability theory, Bayesian analysis, Linear algebra, Calculus, Multivariate analysis, Hypothesis testing, Regression analysis, Time series analysis, Statistical modeling)
- Experience with Cloud Platforms and Git for Version Control

Experience

Proforce Limited
Data Scientist
September 2025 - Present (10 months)
Ogun State, Nigeria

Justrite Limited
Data Scientist
November 2023 - May 2025 (1 year 7 months)
Lagos State, Nigeria

- Developed and deployed machine learning models to analyze customer purchase patterns, resulting in a 17% increase in customer retention and personalized marketing efficiency.
- Streamlined inventory forecasting using time series analysis, reducing stockouts and overstocking by 22%.
- Automated ETL pipelines using Python and SQL, enhancing data accuracy and reducing manual processing time by 35%.
- Built interactive dashboards in Tableau to track key business metrics, enabling real-time decision-making for sales, inventory, and marketing teams.
- Collaborated with cross-departmental teams to identify data-driven solutions, optimizing promotional strategies and contributing to a 12% growth in quarterly sales.

Sonik360 Nigeria
Marketing Data Analyst
November 2022 - October 2023 (1 year)
Lagos State, Nigeria

- Performed statistical analysis and predictive modeling on customer behavior, optimizing targeted marketing campaigns and increasing conversion rates by 15%.
- Automated data collection and processing using Python and SQL, reducing report generation time by 30% and improving data accuracy.
- Created interactive dashboards in Tableau, providing actionable insights and driving strategic business decisions, leading to a 20% increase in sales.

Local Government Council

IT Support Personnel

February 2022 - October 2022 (9 months)

Lagos State, Nigeria

- Resolved hardware and software issues by troubleshooting, reducing downtime by 25% and improving overall system performance.
- Managed IT infrastructure, including network configuration and system security, ensuring a 98% uptime and enhancing data security protocols.
- Collaborated with cross-functional teams to implement technology solutions, improving operational efficiency by 10%.

Musshak Nigeria Limited

IT Personnel

January 2021 - October 2021 (10 months)

Lagos State, Nigeria

- Managed and optimized IT infrastructure, ensuring seamless data flow and high system performance to support data-driven decision-making processes.
- Streamlined data workflows and integrated automated scripts for system monitoring and error detection, reducing troubleshooting time by 30%.
- Provided technical support for data management systems, ensuring uninterrupted access to critical data for analysis and reporting.

Lagos State Emergency Management Agency (LASEMA)

Control Room Operator

November 2019 - March 2020 (5 months)

Lagos State, Nigeria

- Monitored and responded to real-time emergency data streams across the state, ensuring 24/7 availability and swift action.
- Managed inbound emergency calls from citizens, categorizing incidents based on severity and urgency using established protocols, achieving a 95% call response rate within 30 seconds.
- Utilized predictive dispatch models to assign relevant emergency departments (e.g., fire, medical, or traffic) to incidents, optimizing response times and reducing dispatch delays by 20%.

- Generated detailed incident reports in the system pre- and post-dispatch, maintaining data integrity for analysis and reporting.
- Performed periodic system maintenance and data checks to ensure uptime and operational efficiency in the control room.

Education

Lagos State University

Bachelor of Science, Electronics and Computer Engineering · (November 2015 - September 2021)
